PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the CIA Photographic Intelligence Division.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training areas or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Iman Army Barracks Railroad Station (BE- [REDACTED] at 45-56N 133-43E and a second barracks area at 45-55N 133-43E are located on the northwest edge and southwest edge of Iman, respectively (Figure 1).

Iman Army Barracks Railroad Station covers approximately 335 acres and contains 1 administration building, 2 administration buildings/barracks, 5 administration/support buildings, 8 multistory barracks, 3 barracks, 1 possible barracks, 23 storage buildings, 1 vehicle shed, 3 probable vehicle sheds, 2 bunkers, and 50 support buildings. The area also contains 2 motor parks, a vehicle ramp, a probable small-arms firing range, and an unidentified facility.

The second barracks area covers approximately 165 acres and contains 1 administration

building, 1 administration building/barracks, 6 multistory barracks, 11 storage buildings, 7 storage sheds, 1 revetted storage building, and 20 support buildings. The area also contains 2 motor parks, an athletic field, a parade field, and a small-arms firing range (Figures 2 and 3).

The installations were covered by KEY-HOLE missions from [REDACTED]. Comparative analysis reveals that the majority of the administration buildings and barracks were constructed prior to [REDACTED] but poor quality photography precluded identification of the other smaller structures. Two additional barracks and numerous support buildings were first apparent on [REDACTED] coverage. The amount of track activity has remained constant at the light-to-medium level.
